Networking in SpatialChat (17:45 – 18:30)

The screenshot shows a SpatialChat interface with a blue background and white text. At the top, there is a navigation bar with a 'MENU' button, the 'SpatialChat' logo, and the text 'SGPF GeoVision 1'. The main content area is divided into three presentation slots:

- Presentation #1**: Stephan Nebiker, FHNW. Mobile Mapping und KI-basierte Objektdetektion mit Low-cost RGB-D Kameras am Beispiel des Parkplatzmonitorings. This slot contains two numbered circles, 1 and 2.
- Presentation #2**: Marc Keller, digital survey AG. Die stetig wachsenden Ansprüche an 3D Daten enden nicht auf der Strassenoberfläche. This slot contains two numbered circles, 4 and 5.
- Presentation #3**: Daniel Stähli, Novitas AG. Mobile Mapping und Gleisdiagnostik auf Netzen von Schmalspurbahnen. This slot contains one numbered circle, 3.

Each presentation slot is separated by white L-shaped lines. The SGPF logo and name are repeated in the top and bottom right corners of the interface. At the bottom, there is a 'CUSTOMIZE' button and a control bar with icons for adding, copying, chat, mute, video, microphone, and a volume icon. A battery level indicator shows 67%.
